

# Monthly Indicators

## December 2017

The number of homes for sale, days on market and months of supply were all down in year-over-year comparisons in a majority of the country for the entirety of 2017, as was housing affordability. And although total sales volumes were mixed, prices were consistently up in most markets. Buyers may not benefit from higher prices, but sellers do, and there should be more listing activity by more confident sellers in 2018. At least that would be the most viable prediction for an economic landscape pointing toward improved conditions for sellers.

Closed Sales decreased 4.5 percent for Single Family homes and 15.3 percent for Townhouse/Condo homes. Pending Sales increased 18.2 percent for Single Family homes and 3.1 percent for Townhouse/Condo homes. Inventory decreased 46.0 percent for Single Family homes and 42.0 percent for Townhouse/Condo homes.

The Median Sales Price increased 14.9 percent to \$269,900 for Single Family homes and 27.9 percent to \$144,500 for Townhouse/Condo homes. Days on Market decreased 25.5 percent for Single Family homes and 37.8 percent for Townhouse/Condo homes. Months Supply of Inventory decreased 50.0 percent for Single Family homes and 45.5 percent for Townhouse/Condo homes.

Unemployment rates have remained low throughout 2017, and wages have shown improvement, though not always to levels that match home price increases. Yet housing demand remained incredibly strong in 2017, even in the face of higher mortgage rates that are likely to increase further in 2018. Home building and selling professionals are both cautiously optimistic for the year ahead. Housing and economic indicators give reason for this optimism, with or without new federal tax legislation.
